ASISTENT: +385 95 7352 686

INTRODUCTION

Dear 2CV friends,
Welcome to the ADRIATIC RAID 2019.

Thank you for entrusting us with showing you the beauty of Croatia in the best possible way - through the open roof of our 2CV vehicles! You have decided to travel the roads towards the most beautiful and cleanest sea in the world... the Adriatic Sea! We believe that you will enjoy touring around this part of Croatia. This is not a race or rally; this is an adventure-travel trip aimed at getting to know the specificities of the area through which you are driving.

In this booklet you will find various recommendations on which roads you can take, and what sites you can visit, in order to reach your designated location each day.

Please drive slowly, organise yourselves in smaller groups, and determine your own tempo of travel. We believe that you will have a great time, see and learn many new things, and that you will return to Croatia at least one more time!

We wish you a happy and pleasant ride!

Croatian 2cv Citroën Club
Adriatic Raid Team

TEAM LEADER: SILVO REBIĆ, +385 91 9071 068
ASISTENT: +385 95 7352 686

RULES AND RECOMMENDATIONS:

Driving in properly maintained and registered vehicles.

Driving in previously arranged groups (around 6 vehicles per group) is recommended.

Maintaining proper distance between vehicles when driving.

Respecting traffic rules.

No driving under the influence of alcohol.

No overloading of vehicles.

Adjusting proper air pressure in car tires is recommended.

Ensuring sufficient fuel is available in the fuel tank.

No throwing of litter and cigarette butts out of the vehicle while driving.

Having positive attitude towards other traffic participants is recommended.

STAGE 1

SAMOBOR - BEDEKOVČINA

Road sign – Varaždin – straight

Road sign – Varaždin – straight

Follow the signs “2cv”

STAGE 1

INTERESTING TO VISIT

During your first day of the Raid you can enjoy travelling through the Croatian Zagorje. This calm and picturesque region invites you to indulge in its charms, and to take your time while driving on its winding roads with little traffic. If you make a small detour from the proposed route towards the first destination of the Raid, you will find yourselves in the town of **Klanjec**. The place is known in Croatia as a small town where the poet Antun Mihanović wrote the lyrics of the national anthem of Croatia, while inspired by the beauty of the landscape of the Sutla River. Klanjec is also the birthplace of the prominent sculptor Antun Augustinčić, who donated his valuable collection of sculptures to his home town, and thus encouraged the construction of the first officially designated museum in the Croatian Zagorje region - the Antun Augustinčić Gallery. The Gallery itself is surrounded by a sculpture park, which is an integral part of the permanent exhibition.

If you wish to relax in thermal baths, on this part of your journey you can visit **Thermae Tuhelj**, which are located at the very spring of thermal waters and the healing mud. This tourist recreational centre is surrounded by the green Zagorje hills, and a gorgeous landscape. This could be a perfect place for you to relax.

A little further up, towards the border with Slovenia lies **Kumrovec**. Ethno village of Kumrovec is the largest traditionally decorated area in Croatia that evokes the authentic look of Zagorje village from the beginning of the 20th century. In about forty renovated buildings of traditional architecture you can find out how the Kumrovec ancestors lived. On the one hand, the arranged exhibits speak about the customs and the everyday life of the peasant and his family, and on the other, they also show various traditional crafts, that the inhabitants of Zagorje villages practised to provide for their families. You will also see the traditional yards and gardens, barns and hampers – everything that made a rich mosaic of life in the countryside.

Nevertheless, Kumrovec is best known for the birth house of Josip Broz Tito, located in the centre of the village. The restored birth house is a part of the farm of the Broz cooperative family, along with historic and ethnographic exhibits.

A bit further up, **Veliki Tabor Castle** is located not far from Desinić. The Castle's name derives from the name of the camp, which meant war camp, or fortifications built to defend against the Turks.

Klanjec

Kumrovec

© Hrvatski 2cv Citroën Klub

Veliki Tabor Castle

STAGE 1

Trakošćan

Veliki Tabor is one of the best preserved late medieval and Renaissance fortified cities in the continental Croatia.

One of the most attractive castles in Croatia, **Trakošćan Castle**, is situated twenty kilometres northwest of Krapina. The Castle is the place where numerous protocol events are organised by Croatian statesmen, but it is also a museum. Trakošćan Castle was built in the 13th century as a small fortress within the system of the forts of the Zagorje Principality. It was expanded and altered several times over the centuries. As of 1953, there is a permanent museum exhibit there, which in addition to the faithful reconstruction of the period ambient displays valuable examples of Baroque furniture and small pieces. The immediate vicinity of the Castle is designed as a landscaped park, where the lake, meadows, trees and shrubs form a harmonious horticultural whole.

Krapina Neanderthal Museum

After taking a break to rest, you could head towards Krapina. Once there, do not miss visiting the **Krapina Neanderthal Museum**, which is located not far from the world famous site of Krapina Neanderthals "Hušnjakovo", both of which make a unique whole. The architecture of the museum evokes the habitat of the prehistoric man: the semi-cave - whose volume, proportions and the front are a result of the analysis done on the former appearance of today's collapsed semi-cave of Krapina.

The village of **Radoboj** is located not far from Krapina, and it is a unique site of sulphur and coal; a place rich in mining tradition, and valuable fossil and archaeological discoveries. It is in Radoboj that the machine for refining sulphur was used for the first time – today, it is widely known as the Radoboj machine. You can experience the rich history of Radoboj, which is still unknown to many people, in the Museum Radboaj!

Oldtimer Museum Presečki

Oldtimer Museum Presečki represents more than 25 years of dedicated collection and restoration of oldtimer vehicles, which was summarised and presented to the public on 1100 square meters of exhibition space, where visitors can immerse themselves in the history of car and motorcycle culture. More than twenty cars, as well as more than sixty motorcycles, are presented there, while vehicles from the 1950s, 1960s, and 1970s represent the most important exhibits. Buses and bicycles also have their place in the museum, along with other artefacts, such as old photographs, magazines, books, posters and devices that evoke the oldtimers' world to visitors.

STAGE 2

BEDEKOVČINA - VRBOVEC

BASIC INFORMATION ABOUT THE STAGE

KM: 80

DURATION: APPR. 3 HRS

Dinner at 6.00 p.m.

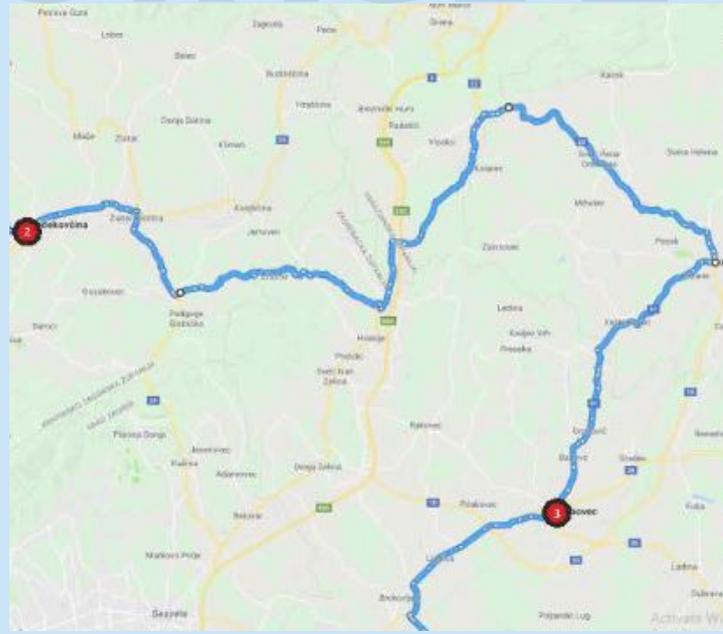

Overnight stay - Sajmišna ulica bb (10340 Vrbovec)

Music - entertainment, socializing

Showers and toilets provided

Sleeping in tents

Possibility to rent rooms in Vrbovec (Hotel Bunčić Vrbovec) - room price not included in the price of the raid

Drive through villages

After 20 km, enter Vrbovec

Roundabout – 1st exit

To the traffic light, then right

Road sign - Sveti Ivan Zelina, enter Celine, 20 m to the entrance of the camp at the right

Follow the sign “2cv”

STAGE 2

Bedekovčina Lakes

Hellenbach Castle

The Peasants' Revolt Museum

INTERESTING TO VISIT

In the very centre of the village of Bedekovčina, the Factory compound of the erstwhile Zagorka brick factory is situated on 60 000 square meters. The compound consists of the old brick factory building, the ancillary buildings and warehouses. The once known factory produced the Zagorka roofing tiles, clinker, keramite, mosaic tiles for paving, clinker bricks, keramite bricks and fire bricks, earthenware pipes, as well as various clay goods and stove tiles.

Bedekovčina Lakes represent the most beautiful part of the Bedekovčina area. They are rich in various types of fish, and that is especially attractive to tourists interested in recreational fishing. Bedekovčina Lakes are also a popular bathing area and promenade, but they are also a place where many events are held. Its walking paths around the lake, beautiful nature and green vegetation, singing of various birds, fishing, and the fishing lodge that offers refreshments to its guests - these are just a few of the reasons why visitors return to Bedekovčina.

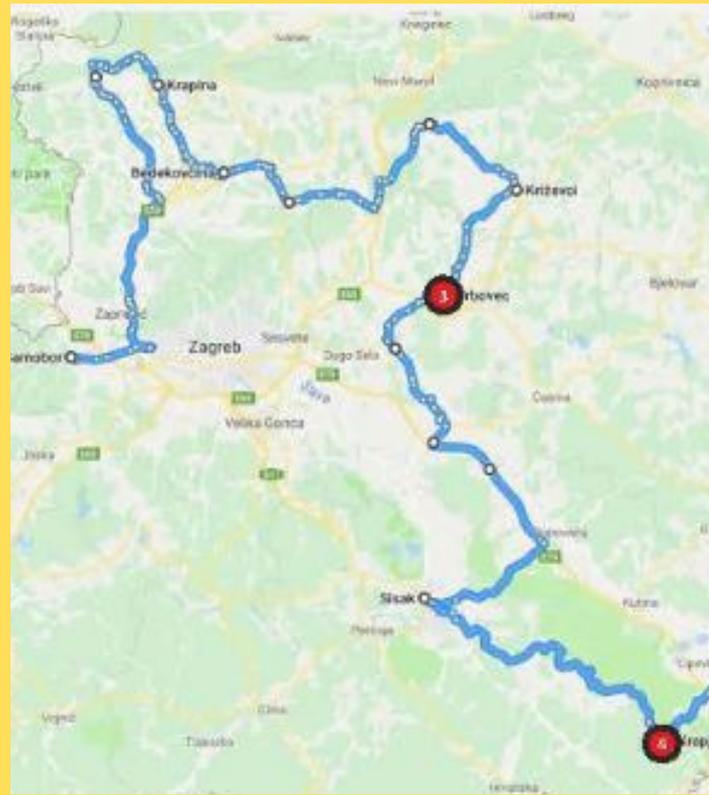

Not far from Marija Bistrica, on the road to Zlatar Bistrica, you can visit the beautiful **Hellenbach Castle**, which is hidden from view by its garden. The Hellenbach family still lives there, so this is one of the few castles in the Croatian Zagorje region where the continuity of living was maintained. Also, its interior is completely preserved just as it was in the last century. The simple and elegant classicist concept of the facade and of the ground plan are the main reasons this castle can be placed among the most beautiful and most valuable castles in Croatia.

However, if you decide to take another route, make sure to visit **The Peasants' Revolt Museum**, which is located in the village of Gornja Stubica, in the 18th century Baroque castle of the Oršić family. The museum's exhibition offers a comprehensive overview of feudal Zagorje through the museum materials related to the peasants' revolts, life of noblemen and peasants, as well as the items from the cultural, historical and artistic heritage of the Croatian Zagorje.

During your journey, you could also visit **Lovrečina Castle**, which is located 4 km from the town of Vrbovec, on the road towards Križevci. Lovrečina Castle was built in the 16th century, and it is interesting due to its ground plan in the form of a key with the main south wing.

STAGE 3

VRBOVEC - KRAPJE

BASIC INFORMATION ABOUT THE STAGE

KM: 144 KM

DURATION: APPR. 3 HRS 45 MIN

Dinner at 6.00 p.m.

Overnight stay - Krapje 16 (44 324 Jasenovac)

Music - entertainment, socializing

Showers and toilets provided

Sleeping in tents

DRIVING INSTRUCTIONS

Enter Popovača

Roundabout – 1st exit – road sign – Sisak motorway (Railway crossing)

Road sign – Sisak – straight

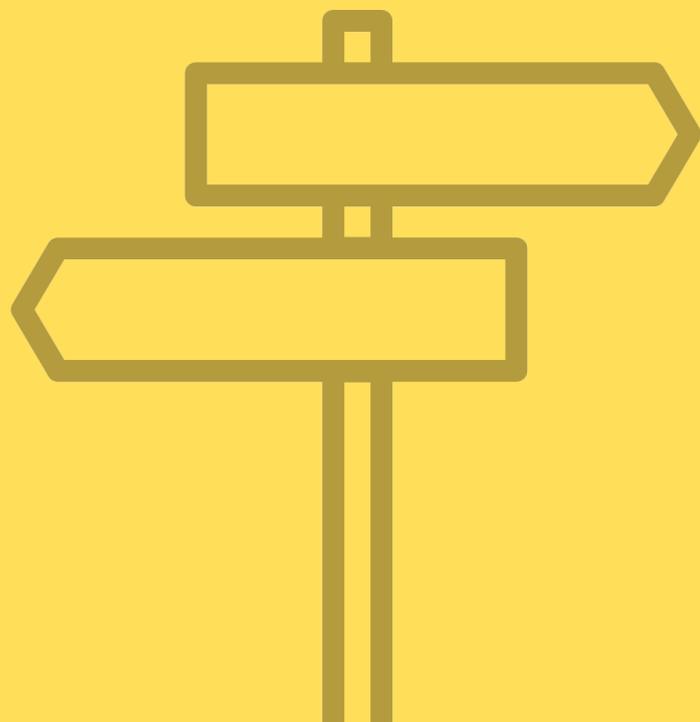

Road sign PP Lonjsko polje / Topolovec – left

Road sign PP Lonjsko polje – left

Arrive in Puska

At the crossroads, continue on the main road

Enter Krapje

STAGE 3

Sisak

Kutina

Lonjsko polje

INTERESTING TO VISIT

This stage of the Raid takes you across Sisak and Lonjsko polje to the village of Krapje.

The city of **Sisak** was a commercial and agricultural centre, and thanks to its oil refinery, iron and steel factory, river port, as well as milling and baking production - it was also one of the largest industrial cities throughout Croatian history.

During the period of battles with the conquering Ottoman forces in the 16th century, Sisak became the most important defence point of the north-western part of Croatia. The legendary Battle of Sisak took place on June 22, 1593, around the fortress of Sisak at the confluence of the rivers of Kupa and Sava, and this area is known today as the Old Town. The Old Town is an example of a Renaissance fortress, and it is also a zero category monument.

One of the places you could also visit in Sisak is definitely the Sculpture Park. Its sculptures were created by members of the Sisak Steelworks Artists Colony, and are set up in the public area of Caprag settlement in Sisak. The Sculpture Park is entered in the Register of Cultural Goods of the Republic of Croatia.

You could also visit the Sisak City Museum, whose permanent exhibit preserves more than three thousand years old history of the city, or perhaps you could take a walk around the famous Sisak promenade and enjoy the view of the Kupa River.

In the town of **Kutina** you can visit the Moslavina Museum, which is interesting because it is situated in the old manor house of the Erdödy family. This former country manor of dukes Erdödy and Steiner was built in the mid-18th century, and it is one of the oldest buildings in Kutina. It is a rectangular Baroque manor which has a small porch above the entrance on its eastern facade.

On this route you should not miss visiting the **Lonjsko polje Nature Park** (Field of Lonja river), which is the largest protected wetland area not only in the Republic of Croatia, but also in the entire Danube River basin. In addition, the Lonja field is one of the last areas in Europe where traditional grazing is preserved, and livestock still roams freely on large joint pastures.

You can discover the beauty and uniqueness of the Lonja field by foot, bike, canoe, river ferry or boat.

STAGE 3

The most famous village in the Lonjsko Polje Nature Park is definitely Čigoč - the first European Stork Village, which was awarded that title by the EuroNatur Foundation dedicated to the protection of European natural heritage, due to the large number of white stork nests located in the village. You cannot help but notice the nests, as they are found on almost every house. More than 200 storks and only about 120 people live there in perfect harmony. People take care of these magnificent birds, and are trying to disturb them as little as possible in order to preserve and possibly increase their population.

The village of Krapje is a historical building area where the originality of traditional architecture has been preserved in its totality. The village has the status of architectural heritage village, and it represents a unique example of traditional wood architecture in a floodplain environment, with a characteristic linear spatial organisation of the village.

In addition to wooden houses, other public historical facilities can be seen in Krapje as well: the church, building of the firefighters' association, municipal building, water mill, cemetery, and a local inn.

Lonjsko polje

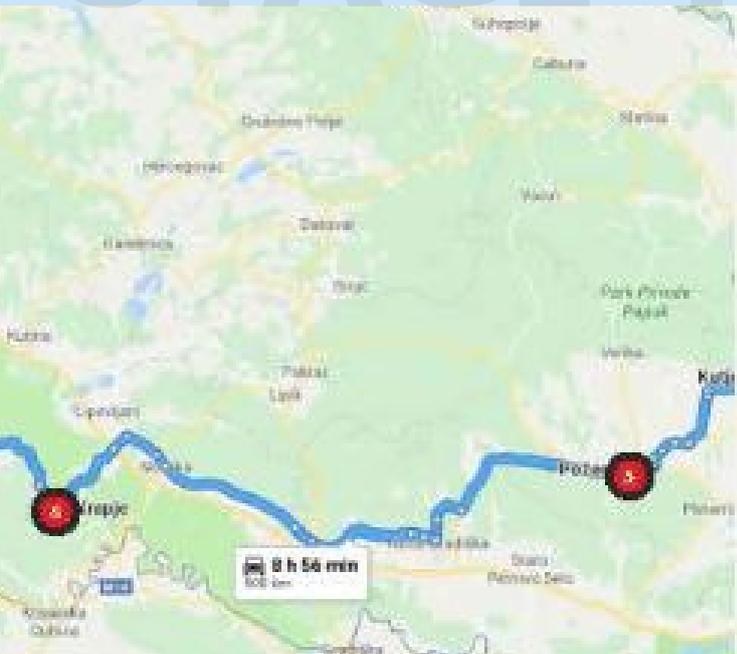

Čigoč

Krapje

STAGE 4

KRAPJE - POŽEGA

BASIC INFORMATION ABOUT THE STAGE

KM: 95

DURATION: APPR. 2 HRS 45 MIN

Dinner at 6.00 p.m.

Overnight stay - Donji Emovci 32 (34 000 Požega)

Live music - entertainment, socializing

© Hrvatski 2cv Citroën Klub

INTERESTING TO VISIT

Not far from Krapje lies **Jasenovac**, which was a concentration camp from 1941 to 1945. In order to preserve the lasting memory of the victims of Fascist terror from concentration camps, the area of the former concentration camp was declared the Jasenovac Memorial Site on July 1, 1968. The memorial area is dominated by one monument - the huge Stone Flower by the sculptor Bogdan Bogdanović.

In addition, you can visit the Jasenovac Memorial Museum, which keeps collections of items that belonged to the inmates, and items that were used in the camp, along with original documents, photographs and memories.

Next, the journey will take you towards **Požega**, the Pearl of the so-called "Golden Valley", as the Romans called it. The Požega valley is actually a ravine, which is surrounded by the mountains of Psunj, Papuk, Dilj, Krndija and Požega Hill.

In the area of mountains of Psunj and Papuk, and of Pakrac hill, there are over 150 km of hiking trails that are well marked, and moving on them is fun and very safe. There are also 100 km of bike paths intended for recreational cycling, but also for mountain biking.

In prehistoric times, the mountains of Psunj, Papuk, Krndija and Dilj were islands of the ancient Pannonian Sea. Today, the only remnant of this sea is Sovsko Lake, located in the heart of Dilj hill.

The city of Požega itself has almost eight centuries of written history, dating back to 1227, when it was first mentioned that Fort Požega became a royal property. However, archaeological excavations confirm traces of life even in prehistoric times. Požega flourished the most in the 18th century. Craftsmen of Požega started to establish guilds and were the bearers of the city's economy. Schools, pharmacy and a post office were established then, and banking started to develop as well.

Not far from Požega lies **Papuk Nature Park**. Numerous surprises await you in this area: from the remnants of forts and old towns such as Kaptol, Ružica grad, Kamengrad, Oršulić, etc., through lookouts, to caves such as Suhodolka, which is the deepest cave in Slavonia. There are also numerous botanical areas and geological sites. For those who are looking for some adrenaline-rush activities, the Park also offers mountain climbing areas, cycling and even horse riding trails, as well as educational trails.

Jasenovac

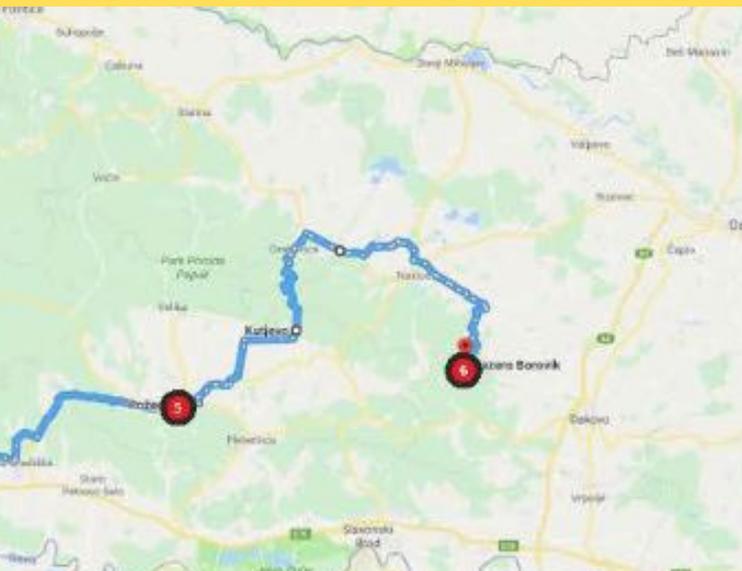

Požega

Papuk Nature Park

STAGE 5

POŽEGA - BOROVIK LAKE

Đakovo, accompanied by the local motorcycle club

After the visit of the National Stud Farm Đakovo –

organised drive to the Borovik lake, accompanied by the local motorcycle club, at 5.30 p.m.

INTERESTING TO VISIT

The next stage of the Raid takes you from Požega, across Kutjevo and towards Borovik Lake.

Kutjevo is best known for its vineyards, so do not miss to visit the famous **Kutjevo** wine cellar, one of the strongest wine centres in Croatia today. There you can see the largest wine barrel made from Slavonian oak, where the Queen of Wine - graševina - is kept, or you can learn more about the interesting love story between the Empress Maria Theresa and Baron Francis Trenk.

Kutjevo Castle can be listed amongst the most beautiful monuments of the rich cultural heritage of this part of Slavonia. The garden around the Kutjevo Castle is a protected monument of garden architecture.

Borovik Lake is an artificial lake created during the reconstruction of the Vuka river bed. It is about seven kilometres long, while its average width is approximately 300 m. It is 4 m deep on average, and 15 m deep at its deepest point. The lake is a favourite destination for many anglers, but it also an ideal place for rest and recreation.

An additional night in Osijek:

As already announced, official date of the end of the Raid is on the 9th of August in Camp Borovik, but we are offering you an additional day for the **final gathering in Osijek!** This is not official part of the Raid, it is on your free will and own decision.

There will be offered:

Free campsite (with electricity and water available) , ensured in the historic "catacombs" on the left bank of river Drava, around 100 meters away from the famous "Copacabana", a bathing resort which is equipped with pools and other recreation facilities, all while stretching alongside river Drava. Just opposite, on the right bank of the river, you can go sightseeing the old part of the town called "Tvrđa" (Fortress), which dates from the first half of the 18th century. It is a historic core of the city, full of cultural lights and tourist attractions. (Tour guide available)

About 15 km distance, you will find the famous Baranja Wine Roads and rural Guest houses which are offering special traditional meals and beverages from Slavonia and Baranja. Nearby there is also a Nature Park Kopački Rit, an untouched area fulfilled with rich flora and fauna.

At the campsite, an offer of local specialties will be arranged in the late afternoon, with music in blues and rock 'n' roll tones going until dawn...

This offer is not included in the costs of the Continental Raid ticket, but you are more than welcome to participate and donate (for the meals and beverages) at your free will! The next morning is reserved for departure of the raid participants towards their further destinations...
