

# CONTINENTAL RAID 04. - 09. 08. 2019.

## Newsletter 4

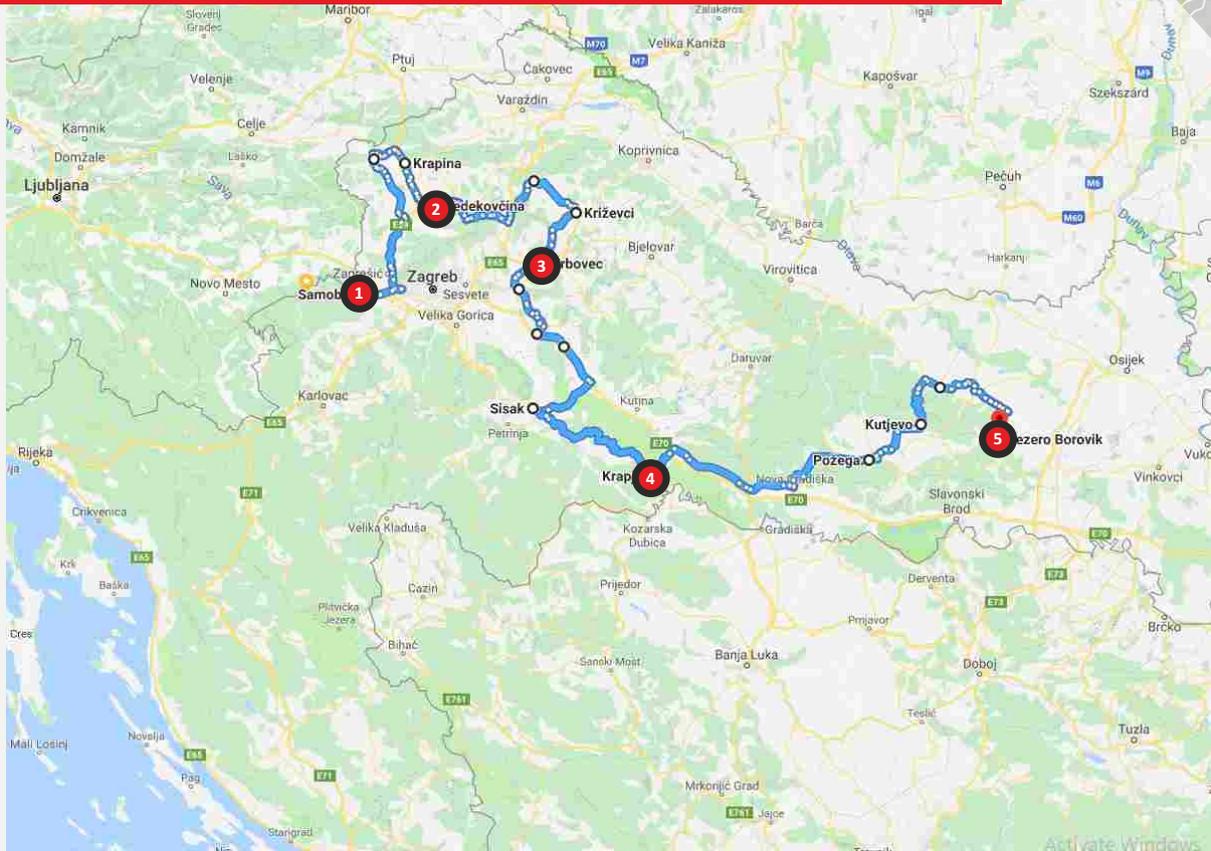

### MORE INFO ABOUT THE RAIDS:

Croatia is essentially different in its Mediterranean and continental part - from nature and vegetation, through cultural influences from north and south of Europe, to gastronomic delights and even the mentality of its inhabitants who are, above all, proud and hospitable people. At just 55,000 square kilometres, as much as Croatia has, you can enjoy diversity of experiences offered by the Croatian 2CV Citroën Club through organisation of two 2cv Raids after the 23rd 2cv World Meeting in Samobor.

We remind you that this year's Raids are only adventurous-touristic character. They are not competitive. The goal is for all the participants of the 23rd 2cv World Meeting, who will participate in Raids, to get closer to the beauties, diversity and specifics of Croatia. Bear in mind that Raids are organized at the time of highest tourist season in Croatia, so there might be bigger crowds and traffic congestion, especially at 2cv Adriatic Raid, as the biggest traffic jam is commonly closer to seaside destinations during this period of the year.
